## PROJECTS

### Aperture — Iris & Argus

2024 – Present

Python • Windows Server • SSH • Cloudflare

- Designed, deployed, and operate an automated futures-trading system running 24/5 on a remote Windows Server VPS.
- Own every deploy, restart, log diagnosis, and uptime — dozens of modules, live data feeds, scheduled jobs, and alerting.

### Sibyl

2025

Tauri • Python • Whisper • Local LLM

- Built, packaged, and shipped an offline desktop app that transcribes and summarizes sales calls on-device — fully private, no cloud; in real-world private use.

### Lockout

2025 – Present • In development

iOS • FastAPI • Fly.io • ML

- Building an iOS app with an AI form-coaching pipeline — record a lift, get feedback; FastAPI backend running live on Fly.io.

## EXPERIENCE

### Personal Trainer • Crunch Fitness

Nov 2025 – Jun 2026

- Designed individualized training and nutrition programs for a personal client base.
- Applied corrective-exercise and behavior-change methods for client adherence and injury prevention.
- Consulted, sold, and retained training packages — owning the full client relationship.

### Front Desk Associate • Crunch Fitness

Jun 2025 – Nov 2025

- First point of contact for members: check-ins, point-of-sale, scheduling, phones, and issue resolution.
- Promoted into the personal-training team within five months.

### Kitchen Line • El Patio (Taco Truck)

Apr 2025

- Ran the nacho station through back-to-back 12-hour high-volume service days.

### Team Member • Chick-fil-A

Summers 2021 & 2022

- High-volume quick service with a focus on order accuracy, food safety, speed, and hospitality.
